

Thank you

Strauss,

6.10

I'm not one for big speeches in front of everyone but I do want to let you know how much I've enjoyed working with you over the last four years. More than anyone else you have really given me the confidence to know that I am capable of going out there and doing what everyone has taught me to do. You're an amazing teacher and person and I will really miss working with you. Simai is lucky to have you.
